The case against Daley was continued in order that the authorities of South Coventry might petition the probate court of that district to have him examined with regard to his mental condition. Chief E. H. Richmond learned, after telephoning to various Coventry people, that the authorities had decided not to do anything, but allow the court to make such disposition of the case as was deemed best.

Andrew Sears' house upstairs at 1061 Main street in a bedroom by a little girl in the act of tampering with a trunk. The complaint charged Daley with breach of the peace and intoxication. He pleaded guilty to both charges. Judge Dean said that a brother of the accused had asked him to do what he could for him and that it had been first decided to have Daley examined as he was thought that he was not sound mentally, but after considering the matter the authorities had deemed it advisable to let Daley go to jail and see if he would straighten out. The court imposed a sentence of 30 days for breach of the peace and suspended judgment on the count.
